

PREVOST FILTRATION - ACCESSORIES

LUB - Biodegradable and synthetic oil

The PREVOST biodegradable synthetic oil is formulated for compressed air, offering effective lubrication for pneumatic tools. It is ideal for use in PREVOST lubricators. Thanks to its biodegradability, it minimizes environmental impact while ensuring reduced wear and delivering industrial performance.

BIODEGRADABLE

The PREVOST biodegradable synthetic oil allows for the rapid degradation of oil discharged by pneumatic tools during usage, thereby reducing environmental impact.

ECOLOGICAL PACKAGING

The PREVOST biodegradable synthetic oil is contained in a 2L bottle made from recycled plastic, highlighting its commitment to a smaller ecological footprint.

LUBRICATION

The PREVOST biodegradable synthetic oil is ideal for lubricating pneumatic tools, offering durability and effective protection.
